VELCRO® Brand Solutions for Industrial Markets

VELCRO® Brand offers Professional Series Fasteners that provide a greener alternative for manufacturers, architects and builders—and can help earn potential green building rating points. These fastening solutions reduce the use of volatile organic compounds (VOCs), eliminate adhesive off-gassing and reduce jobsite waste, while reducing installation time. VELCRO® Brand Professional Series Fasteners require fewer tools; are easy to replace and reposition; prevent damage to the underlying building envelope; and can be applied in a wider range of temperature and weather conditions for improved productivity and reduced labor costs.

GENERAL PURPOSE

GENERAL USE FASTENER

Medium profile hook & loop closure for indoor use. Adhesive suitable for wide range of substrates (aluminum, stainless steel, glass, plywood and limited plastic surfaces). Medium tack adhesion. Commonly used for indoor mounting of items that are often used, replaced or upgraded. Not suitable for polyethylene, polypropylene or vinyl-PVC.

CLOSURE INFORMATION		
	MATERIAL	Polyamide
	CYCLE LIFE	High

ADHESIVE RECOMMENDATIONS OF USE

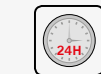

Ideal temperature from -30°F to 140°F
Relative humidity from 40% to 60%

Clean the surface

Remove liner and press

Please wait 24 hours

* Weight resistance of 2 inches x 4 inches of closure.

HIGH PERFORMANCE

HIGH STRENGTH FASTENER

VELCRO® Brand Extruded Plastic hook & loop closure. Medium profile hook & loop closure for indoors (2x) stronger than our General Use Fasteners. Adhesive suitable for wide range of substrates (aluminum, PVC-vinyl, stainless steel, glass, plywood and limited plastic surfaces). High temperature (140° F) rated adhesive. Commonly used for indoor mounting applications that are often used, replaced or upgraded. Not suitable for polyethylene or polypropylene.
