

## Professional Series Control System Applications

VELCRO® Brand Professional Series offers fasteners that organize cable pathways and aids in mounting equipment for control systems. VELCRO® Brand ONE-WRAP® Tape is a flexible cable management solution that is available in colors that match various cable types and identifies specific pathways within different applications. ONE-WRAP® Tape also includes a fire retardant version for use in plenum space. These fasteners are reusable, easy to reposition, and soft to prevent damage to cables, but strong enough to maintain large cable bundles in a pathway. VELCRO® Brand ONE-WRAP® Tape's flexible material reduces stress on cables which helps installers align with TIA-568.D-0 (2018) recommendations. It also complies with NEC (section 300.22, C and D) and is the recommended hook and loop fastening solution of choice by BICSI (ITSIMM, 7th edition) standards.

### Smart Solutions for Contractors and Installers

- 1 Organizes low voltage and fiber optic cables for control panels and PLC's. Easy to remove and reposition without the risk of damaging cables.
- 2 Coordinates and identifies cable pathways. Eases the process of moves, adds and changes.
- 3 Optimizes ethernet cable management.
- 4 Fire retardant fasteners in plenum spaces throughout the manufacturing plant, according to NEC standards.
- 5 Adjustable cord organization within work spaces.
- 6 Eliminate damage, enable repositioning and avoid injury without using sharp tools and edges.

## Benefits

### Labor savings

- Lowers risk of damaging cables & surfaces
- Reusable & repositionable
- Flexible to support moves, adds, or changes
- Can be cycled up to 2,000 times

### Practicality

- Easily identify using 13 different colors
- Fire retardant version available for plenum spaces
- Complies to TIA Standard (568.D-0, 2018)
- Preferred fastener according to BICSI (ITSIMM, 7th Edition)

### Compliments

- Fiber optic and ethernet systems
- Copper cable systems
- Racks, cabinets and trays
- Patch cable management

## Have you considered our adhesive-backed hook & loop as alternatives to traditional fasteners?

VELCRO® Brand Professional Series fasteners allow devices to be removed and repositioned, which eases the process of installing and upgrading control system equipment. From general use to industrial applications, our Professional Series products are a smart alternative to traditional fasteners and a must-have for any contractor and installer.
