

Professional Series Security Applications

The VELCRO® Brand Professional Series eases the process of installing and updating cable pathways and security equipment with reusable and repositionable alternative fasteners. VELCRO® Brand ONE-WRAP® Tapes are flexible, reusable, easy to reposition, and soft to prevent damage to cables, but strong enough to maintain large cable bundles in a pathway. ONE-WRAP® Tape also includes a fire retardant version for use in plenum space. These fasteners are an adjustable cable management solution that is available in colors that match various cable jackets and identifies specific pathways within different applications. VELCRO® Brand ONE-WRAP® Tape's flexible material reduces stress on cables which helps installers align with TIA-568.D-0 (2018) recommendations. It also complies with NEC (section 300.22, C and D) and is the recommended hook and loop fastening solution of choice by BICSI (ITSIMM, 7th edition) standards.

Smart Solutions for Contractors and Installers

- 1** Keep cable bundles secured and organized for optimal air flow to help keep equipment cool. Quickly identify pathways and create a clean look through the use of color coded fasteners.
- 2** Organize cables, cords, and wires within work stations.
- 3** Coordinate spaces and ease the process of moves, adds and changes. Flexible to adapt to curved pathways.
- 4** Soft materials prevent overtightening and won't damage cables or restrict data flow.
- 5** Fire retardant solution for use in plenum space according to NEC standards.
- 6** Eliminate damage and enable repositioning with no tools required.

Benefits

Labor savings

- Lowers risk of damaging cables & surfaces
- Reusable & repositionable
- Flexible to support moves, adds, or changes
- Can be cycled up to 2,000 times

Practicality

- Easily identify using 13 different colors
- Fire retardant version available for plenum space
- Complies to TIA Standard (568.D-0, 2018)
- Preferred fastener according to BICSI (ITSIMM, 7th Edition)

Compliments

- Ethernet cable systems
- Copper cable systems
- Racks, cabinets and trays
- Patch cable management

Have you considered our adhesive-backed hook & loop as alternatives to traditional fasteners?

VELCRO® Brand Professional Series fasteners allow devices to be removed and repositioned, which eases the process of installing and upgrading security equipment. From general use to industrial applications, our Professional Series products are a smart alternative to traditional fasteners and a must-have for any contractor and installer.
